At least one error upon which reissue is based is described as follows:

Patentee failed to claim a two-electrode chemical sensor wherein a sensing electrode and a counter electrode are the only two electrodes in contact with a first protonic conductive electrolyte membrane. Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application.
